Basic Health Care SEVA Project
For
Temporary Unemployed / Uninsured Families

Dear Friends from the Medical Professions,

The current economic crisis has resulted in massive lay-offs in the region, and some of our community members are in distress, having lost their jobs and, consequently, health care coverage for their families. We are looking for ways to provide short-term assistance for these unfortunate families and believe that you could be part of the solution. As part of the Volunteer program, you can:

Case 1: You are a medical professional with independent clinic:

You offer your medical professional services on a volunteer basis.

Minimum commitment is to see at minimum 2 unemployed patients per month with basic health issues or minor injuries.

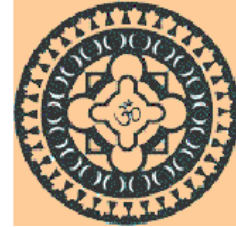

Case 2: Being a medical professional, you are employed with a hospital or lab clinic:

You could ask your clinic or hospital to support this project with a limited number of medical tests at a cost-to-cost basis such as X-RAYS, MRIs, blood tests or other special tests.

Please contact us at (248) 312-0147 (Lalit Sethi) or e-mail us @ lalit23s@yahoo.com if you need more information or would like to volunteer your professional services to help support our community in time of need.
